Hobbies

Rock climbing, running, cooking, badminton, drums

Profile

From the moment I produced *"Hello World"* in the console of my first application, I knew I was hooked into the world of software development. But software development has never been *"just a job"* for me, it's offered an engaging challenge to continually learn and improve my skills in creating high-quality software. What started with a simple *"Hello World"* has become a full-fledged passion that only gets more exciting as the years go by.

Experience

Junior Frontend Developer, AKQA, Melbourne

January 2022 — Present

- Responsible for planning, developing and delivering high-performing web solutions for clients across the AKQA Australia network
- Works closely in an Agile environment with AKQA's team of designers, UX specialists, technical developers, marketing automation specialists and project managers
- Predominantly working on the frontend using ReactJS (styled-components, JavaScript) following UI/UX principles

Junior Frontend Developer, Freelance, Melbourne

January 2021 — December 2021

- built and maintained websites and web apps for small to medium sized companies using Vanilla JS, ReactJS, Gatsby and GraphQL
- responsive, mobile-first, with WCAG accessibility and optimised performance considered

Senior Mechanical Engineer, Vibroflow, Melbourne

July 2016 — December 2021

- managed all aspects of the design, manufacturing and production process for small to medium-sized companies
- preparing/reviewing drawings (AutoCAD/Solid works), calculations, and reports to make recommendations for engineering improvements and problem solving

Education

BEng Mechanical Engineering (Hons), Monash University

February 2012 — June 2016

Graduated with Honors

Melbourne High School

Captain of the Senior Badminton Team
